Your message	Hello, I am getting in touch with you to see if it might be possible to ask you a few questions about your hiring process. I am currently enrolled in a full-stack software development course with The Code Institute, Black Rock, Dublin. As part of my project, I am required to complete user interviews. My project is a personal portfolio website and as such, I would expect software recruitment agencies to be one of the main users of the site. I

would be very grateful if you had the time to answer a few short questions. If you would be interested in participating then please feel free to respond and I will send you a short questionnaire. The questionnaire will take no more than 2-3 minutes.

Kind Regards,

Fiachra
